

User Guide: How to Book an Inspection with The City of Calgary

Before you book your inspection make sure you have your Job Access Code (JAC). You will need the JAC to book your inspection. Applicants can find their JAC after submitting a permit as part of the permit confirmation email. As the JAC is confidential, homeowners or consultants looking for a JAC should contact the permit applicant to request the JAC.

Step 1: Access the Booking Website

- Visit inspections.calgary.ca.
- Log in using your **myID** or **VISTA** credentials. If you don't have a myID account:
 - Click on the **Sign Up** option.
 - Follow the guidelines provided in the instructional video for creating your myID.

VISTA accounts are for contractors with a registered business licence. Learn more about or apply for a VISTA account at vista.calgary.ca.

Step 2: Select Your Inspection Type

- Select **Manage Inspections**

The screenshot shows the 'Inspections Online' web interface. At the top left is the Calgary logo. Below it is a navigation menu with 'Manage Inspections' selected. A search bar is visible. The main content area contains filters for 'Permit Applied From' and 'Permit Applied To' (both with date pickers), a 'Community' dropdown menu, and a 'Booked Inspections' checkbox. Below these are three buttons: 'Search', 'Reset', and 'View All Issued Permits'. At the bottom, there is a note: 'If you want to hide the advance search section and always load all your issued permits by default, click the Yes button.'

- Choose the type of inspection you require from the available options, including:
 - Commercial/Multi-Family Building Permits (CMF)
 - Single Construction Permits (SCP)
 - Residential Improvement Projects
 - Electrical, Plumbing and Gas, HVAC, and Development Completion Permit Inspections
- Find the permit you want to book the inspection for and press **book**.

Step 3: Provide Details

- Choose date and then fill in necessary information.
- Fill in the necessary information related to your inspection request.
